

# Xfast-AutoDoc: helps you generate automatic documentation for Murex

## Your Needs

- Updated and detailed technical documents for Murex reports MUREX
- Immediate availability, no matter what the project
- Quick access to specific reports, not matter what the over-all quantity

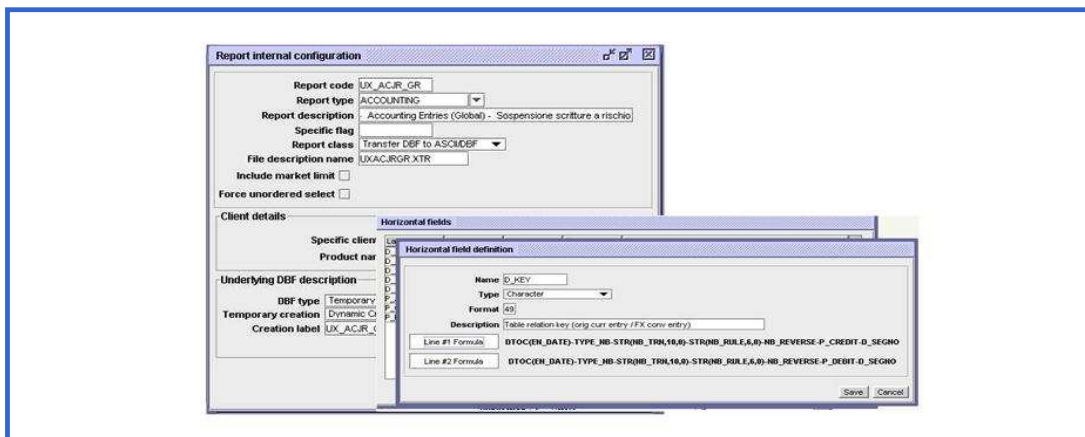

## Xfast-AutoDoc by Team Trade

*Xfast-AutoDoc* is the result of Team Trade's extensive MUREX experience. It facilitates the efficient generation of reports. Technical reports are automatically printed, leaving consultants more time to concentrate on report analysis. *Xfast-AutoDoc* saves time and increases productivity. Projects are easily centred and Murex reports appear in easy to use Word format.

### 3 in 1 right away:

- Facilitates *Mreports* (version <= 2.10), and Datamart (version >= 2.11)
- Works with all SGDB applications (Oracle and Sybase)
- Stand alone version or from Murex files

## Example of a Murex report (version 2.11)

The right hand screen shows a Murex report generated in Word format. The underlying data base, fields, formulas and a report description, etc. are clearly mentioned.

Our clients immediately obtain documentation and reports on demand that would not be possible without *Xfast-AutoDoc*.

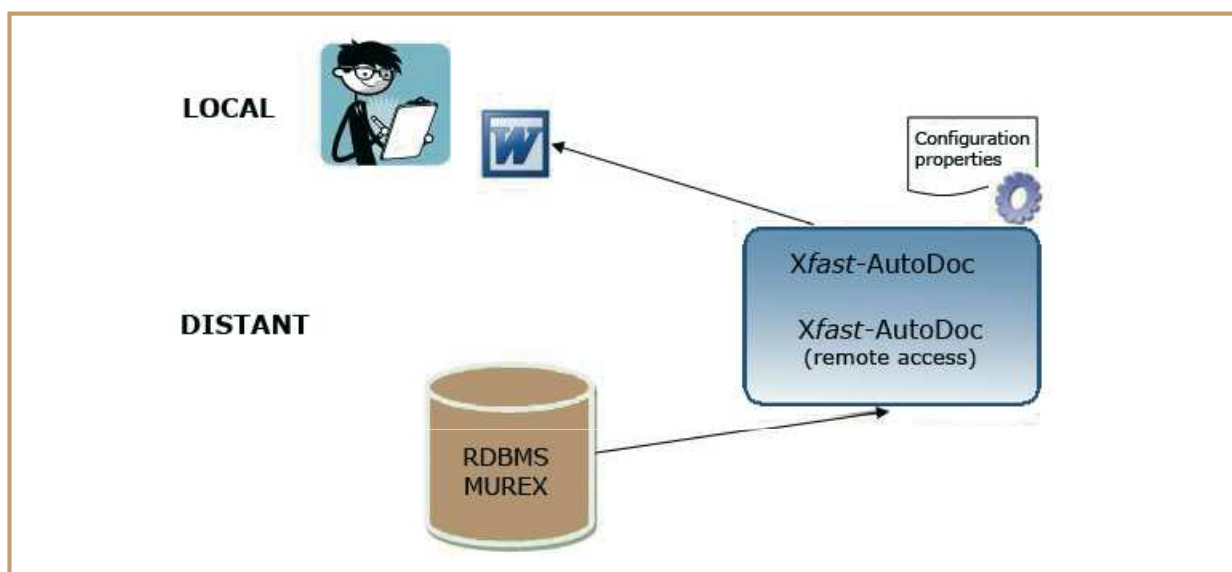

## Xfast-AutoDoc: helps you generate automatic documentation for Murex
